EsCo HomeStyle®

insole technology doesn't stop before the front door. EsCo HomeStyle® is developed for feet, that needs an orthopedic support at home. With a premium wool felt cover, it offers all comfort, that is requested in the private surroundings, combined with all requirements to an orthopedic individual insole system. EsCo HomeStyle® insoles are so cozy and comfortable, like your customers expect their slippers.

There are a lot of house slippers for loose, orthopaedics insoles, but now we have finally an insole system, that regulates temperature and humidity - and reduces odours. EsCo HomeStyle® keeps the feet warm in winter, pleasurable tempered in summer and at anytime a perfect orthopaedic support.
